

Surgipro Surgical Face Mask

MEDIDATA SDN. BHD. (33924-T)

The production of disposable surgical face mask products requires the utilization of a very wide range of skills and expertise. As with the production complex issue, the essential requirement is also expertise in all other key activities. Hence, the preparation of high quality raw material requires careful management, specialist information and experience to obtain the best outcome result in producing Surgipro Disposable Surgical Face Mask.

Surgipro Disposable Surgical Face Mask is a non-woven material that offers filtration-efficient, fluid-resistant, superior comfort and breathability to help reduce wearer to exposure of potentially infectious particles, blood and body fluids.

Surgipro Disposable Surgical Face Mask complies with the high standard tests of Bacterial Efficiency Filtration, Differential Pressure, Sub Micron Filtration and Fluid Penetration Resistance.

Surgipro Surgical Disposable Face Mask features:

- Bacterial filtration efficiency above 95%.
- 3ply face Mask.
- Adjustable nose piece for comfort and proper fit.
- Available with wrap around eye shields.
- Designed to fit faces of various shapes and sizes while providing a soft, non-irritating inner surface.
- When worn properly help reduce the risk of wearer exposure to potentially infectious particles, blood and body fluids without sacrificing breathability.
- Combines comfort, breathability and proven filtration with the benefit of fluid resistance for surgical procedures when the surgical face mask is worn properly.
- Available in two forms:
 - Product Code: 07.501.01, Tie On Type
 - Product Code: 07.501.02, Ear Loop Type
