## Absorbent Gauze Products

Absorbent Gauze consists of cotton fabric of plain weave, bleached to white and purified. The product is practically odourless and contains no more than traces of leaf residue, seed coat or other impurities.

Medidata is manufacturing the absorbent gauze in many forms of product categories and mesh depending on the medical application purposes. Customers are advised to indicate the required mesh when forwarding any inquiries. Alternatively, our sales representatives could also recommend the suitable product and mesh to meet your needs.

### Roll Absorbent Gauze

The product is being produced to offer users the convenience to custom cut the product to fit required sizes. Medidata Sdn. Bhd. manufactures the product in 2 ply or 4ply with 36" width and various lengths - 5 yards, 100 yards or 100 meter. The product could also be produced in standard or x-ray detectable.

### Precut Absorbent Gauze

Ideals for wound dressing, general cleaning and minor prepping. The company fabricates the product in standard and x-ray detectable. The product is available in sterile or non-sterile packing with various specifications as follows:

- 5cm x 5cm x 24ply
- 6cm x 6cm x 24ply
- 7.5cm x 7.5cm x 32ply
- 10cm x 10cm x 8ply

### White Open Wove Bandage

White Open Wove Bandage consists of cotton or viscose or both combination of cotton and viscose. The product is neat and has un-frayed edges. Thus making it ideal for wrapping dressings or to prevent contamination and movement.

White Open Wove Bandage is available in one continuous length which is 5.5m with no joins and several widths - 2.5cm, 5cm, 7.5cm and 10cm.
